DETAILED ACTION

Election/Restriction

In addition to the election requirement of Office paper No. 10, dated May 3, 2000, it is further notice that the claims encompass a multiple inventions, specifically a combination and subcombination.

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-3 and 5-23, drawn to a tension member, classified in class 57, subclass 212.
- II. Claims 24-50, drawn to a traction drive for an elevator system, classified in class 187, subclass 254.

2. The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because at least each of the base claims 24 and 32, respectively, can have the cords not being arranged side-by-side. The subcombination has separate utility such as being utilized alone or in combination with other combinations.

Art Unit: 3652

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(I).
6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Thuy v. Tran whose telephone number is (703) 308-2558.
